

Testimony in support of SCR-141

21 March 2006

**Description: Resolution supporting condemnation of land in Royal Kunia for the establishment of a park.**

**Senate Hearing Committee on Wednesday, March 22 at 10:00 A.M.**

**Memo for: The State of Hawaii Senate**

**From: Robert A. Steen  
94-1003 Waiahu St.  
Waipahu, HI 96707**

**Dear Folks,**

**I urge you to support this resolution that puts your citizens' quality of life above the desires of greedy developers. The area in question is the primary "open space" designed into the Royal Kunia community master plan, and further housing development, as proposed by the 3G Company, would make our neighborhood an unending house-to-house sprawl.**

**I believe the state and city should contribute in a positive way to the development of this part of Oahu, the fastest growing on the island. We certainly contribute to the state coffers in a large way, so why shouldn't we expect the same level of state support as other areas of the island. Smart development must be a partnership between business, the City and the State. This would be a great time for the State to step up and be counted.**

**Thank you for your consideration.**

**Sincerely,**

**//signed//  
Robert A. Steen**
