Aloha Friend --

On Tuesday, it was my great privilege to make Hawai'i the first U.S. state to officially align with the Paris Climate Accords. By signing into law S.B. 559 and H.B. 1578, we have made a bold statement to the world that **Hawai'i will stand up for climate science**, for our keiki and for children everywhere.

President Trump may not think our climate is worth protecting, but we know better -- and we're not going to rest on our laurels when the future of our planet is at stake.
