Aloha Friend --

As you may be aware by now, President Trump recently announced his intention for the United States government to withdraw from the landmark Paris Climate Accords. I am proud to stand with Hawai'i's other elected officials in underscoring **our continued commitment to the Paris accord.**

I wanted to make sure that you saw my statement on President Trump's recent decision regarding the Paris Accord:

“Hawai'i and other Pacific Islands are already experiencing the impact of rising sea levels and natural disasters. That's why my administration and the Legislature are already taking concrete steps to implement the Paris Accord.

Hawai'i will continue to fulfill its kuleana on reaching our energy, water, land and other sustainability goals to make island Earth a home for all. The innovation economy is driven by technology, clean energy, and green jobs.

We will continue to lead on this transformation and work collaboratively with people around the world.”

- Gov. David Ige

I am committed to working towards the fulfillment of our promise -- with humble respect for the planet we inherit from our ancestors, and with an eye to its future and those who will come after us.

Mahalo,

David Ige

P.S. I hope you will join me in this effort. [I can't do it without you.](#)
