Aloha Friend,

Governor Ige continues his legacy to protect and conserve our environment with **the recent 2,900 acre state land acquisition of the Helemano Wilderness Recreation Area in Central O'ahu.**

This acquisition will protect a critical watershed that helps to replenish one of O'ahu's most important aquifers, improve the habitat for many endangered native species, and provide new outdoor recreational opportunities.

Governor Ige's leadership often involves strong partnerships. **The Helemano Wilderness Recreation Area is a perfect example of his collaborative style and his ability to work with federal, state, and private-sector entities** including the Dole Food Company, Trust for Public Land Hawai'i, the state's Legacy Land Conservation Fund, the U.S. Department of Agriculture's Forest Legacy Program, the U.S. Fish and Wildlife Habitat Conservation Plan, the Pittman-Robertson Fund, the U.S. Navy and Kawaihoa Wind.

Friend, Governor Ige has an exemplary record of preserving and protecting our environment. Will you join our campaign today and help us win on November 6th?

Mahalo,

Team David Ige
