Aloha Friend,

This week was another historic first for Hawai'i -- and the nation! **Under Governor Ige's leadership, Hawai'i has become the first state in the nation to ban chlorpyrifos** -- a pesticide that has been found to cause severe developmental delays in children.

In addition to prohibiting use of chlorpyrifos, the bill Governor Ige signed yesterday also prohibits the use of restricted use pesticides on or within 100 feet of a school while class in session. **Governor Ige is taking these important steps to protect our keiki** because he can be trusted to do the right things for the right reasons.

Protecting our Keiki

Friend, this is just one of many ways Hawai'i has led the nation for the past four years . **Will you join our campaign today so we can continue to benefit from four more years of Governor Ige's leadership?**

If you've saved your payment information with ActBlue Express, your donation will go through immediately:

\$100

\$50

\$25

\$10
