Aloha Friend,

I am very honored to share that The Sierra Club of Hawaii has endorsed the Ige/Tsutsui team. I'd like to thank the more than 10,000 members that make up the State's largest and most active grassroots environmental organization.

Among the reasons why we received the endorsement is our commitment to moving toward a more sustainable future, preventing climate change, facilitating increases in rooftop solar usage, identifying and protecting agricultural lands for local food production, and protecting water resources for generations to come.

We can have both a healthy environment and responsible economic growth through comprehensive planning that engages environmental interests, development interests, and other community interests.

Our campaign is about listening and respecting all the voices and opinions that make up our Hawaii family, and working together to move Hawaii forward.

Thank you for your support,

David Ige
